

三惠機械株式会社

SANKEI MACHINERY CO., LTD.

This is the Theme of SANKEI MACHINERY.

Satisfaction to the customers Ecology to the world.

Machinery products and Facilities such as Automobile and related devices are essential for every modern civilizations.

The Supply line of the manufacturing products are the most important procedure for every industries. Sankei Machinery Company contributed to supply these machineries and facilities for manufacturing industry and served with smooth and secure distributions.

We are aiming to provide fruitful and comfortable environment for manufacturing workplaces through High performance, High quality, Low cost and ecological machinery facilities which all of the customers needs and through and Ecological products policy is also important.

In order to achieve this, Ecological machine technology is the top priority and non-polluting and low noise technology is the key technology.

To construct better relationship for man and Machine, To contribute our efforts in the continuous and evaluated Society.

These are not only our spirits but also final goal.

- NAME of COMPANY : SANKEI MACHINERY CO., LTD.
- ESTABLISHED : April, 2 , 1957
- PRESIDENT : Mr. TATSUYA MATSUBUCHI
- CAPITAL : Jpy 20,000,000
- BUSINESS CONTENT : ●Commercial Division
Sales of Machine Tools
Sales of Press Machines
Maintenance, Overhaul, Rebuilt of Machinery
Sales of Used Machines
●Manufacturing Division
Manufacturing of Hydraulic Press Machines
Manufacturing of Hydraulic Specialized Machines
Manufacturing of Automatic and Labor-saving Devices
Manufacturing of Casting Machines
Manufacturing various kinds of Testing Machines
- ADDRESS : ●Head Quarters
5-13 Nakamachi 2-Chome, Setagaya, Tokyo 158-0091
TEL: +81-3-5758-5871 FACSIMILE: +81-3-5758-5870
- Tochigi Sales Office
2023-3 Nishimizushiro Ohira, Tochigi-shi, Tochigi 329-4423
TEL: +81-282-44-0373 FACSIMILE: +81-282-44-0374
- Overseas Related Companies
SANKEI MACHINERY THAILAND CO., LTD.
21/7 M.6 Suwinthawong Rd., Khokfad, Nongchok, Bangkok 10530
TEL: +662-548-2241~2 FACSIMILE: +662-548-2243

History

1957, April	Company established SANKEI MACHINERY Company Limited Capital Jpy 1,000,000
September	Kamata Factory Opened
1960, February	Moved Headquarter to Kyobashi, Chuo, Tokyo
April	Began to manufacture All Mighty Hydraulic Press Machines
1968, May	Made Capital Increase to Jpy 10,000,000
1973, May	Began to manufacture and design Specialized Machine
1974, April	Made Capital Increase to Jpy 20,000,000
1984, January	Opened Kanagawa Sales office
1986, February	Began to manufacture Hot Press Machine
1988, May	Began to manufacture Various Testing Machine under cooperation with Yokohama Engineering
1990, July	Opened Sankei Machinery Thailand.
1990, August	Opened Ibaraki Factory at Kanasago, Kuji, Ibaraki
1992, April	Opened Tochigi sales office
1994, September	Opened Yokohama Sales office
1997, November	Moved Headquarter to Ota, Tokyo
2005, June	Moved Headquarter to Shinagawa, Tokyo
2010, April	Tochigi sales office address change in municipal mergers
2010, May	Closed Yokohama Sales office
2010, August	Moved Headquarter to Setagaya, Tokyo
2014, February	Moved SANKEI MACHINERY THAILAND

Associated Companies

Sankei Machinery Thailand Co.,Ltd.

Main Customers

ISUZU MOTOR	HITACHI
I Metal Technology	YAMAHA
JIDOSHA BUHIN	SONY
NISSAN	FCC
NIPPEI TOYAMA	OKI
Matsumoto ES-Tech	SANYO
MITSUBISHI ELECTRIC	CANON
MITSUBISHI HEAVY IND.	GAC
MITSUBISHI MATERIAL	BRIDGESTONE
HONDA	JR OMIYA etc.
FUJI JYUKO	MARUWA
DAIHATSU	SMC
SUZUKI	MINEBEA

We provide “MACHINE TOOLS” , “HYDRAULIC PRESSES” , and some other “HYDRAULIC SPECIALIZED MACHINES” .

We are proud of selling 5000 sets of one side supporting special designed hydraulic presses machines from the beginning of the company.

We starts development from hearing customers demands, so that our technology will adopt fully customers needs.

Our Hydraulic press machine is something different compare with other manufacturers machines. Technology will go advance together with user friendly devices.

Sankei is not only manufacturing many high technological presses but also give best advice to select machines from our existing products line. And also we are preparing fully supporting service programs, not only manufacturing, developing , selling products but also rebuild, repairment maintenance.

Our customers are always satisfied with our full support systems. Sales of consumption products are also useful to our customers.

Our concepts of full support systems are ‘Low Cost’ ‘Short Delivery term’ and ‘Satisfaction’ .

Main Dealing products

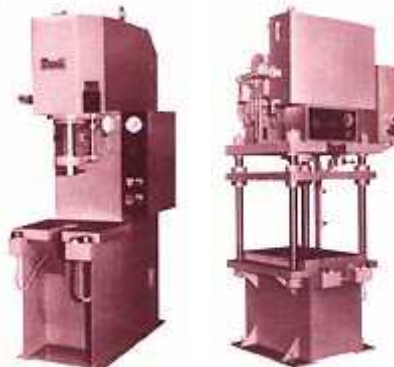

- C frame Hydraulic Press Machine
- Colum type hydraulic Press Machine
- Straight side type Hydraulic Press machine
- Hydraulic press machine with rotary feeding table
- Straighten Press machine
- Hot Press machine
- Design and Manufacture various kinds of specialized machine and press line
- Maintenance and overhaul of above mentioned machineries
- Other Machine tools maintenance, Installation, selling consumption articles

Main sales products

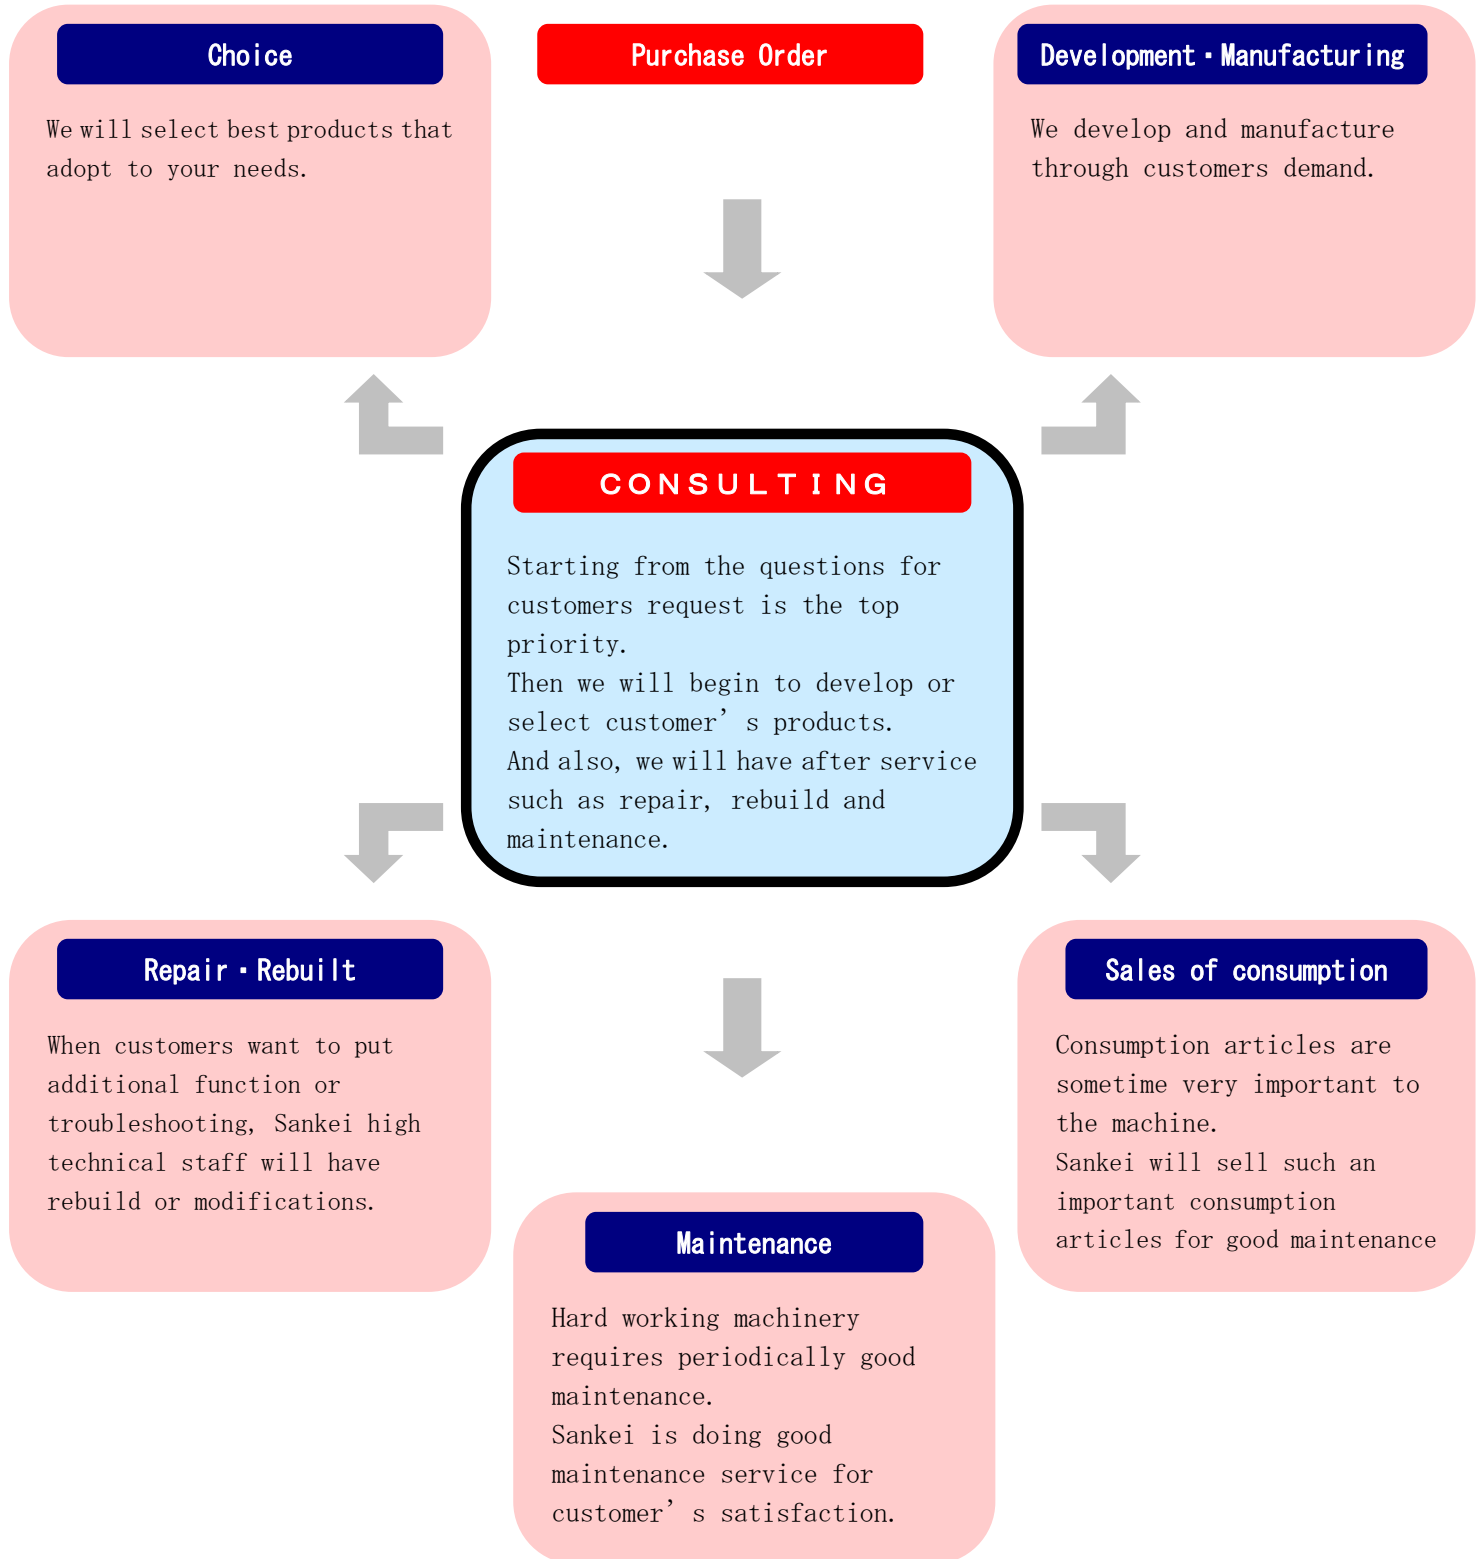

- Machine Tools
 - Machining center
 - Drilling Center
 - Versatile NC
 - Lathe
 - Automatic machine
 - Milling machine
 - Planning machine
 - Grinding machine
 - Geared machineries
 - Drilling machine
 - Sawing machine
- Press Machine
 - Mechanical Press machines
 - Shearing machines
 - Automatic feeding machines
 - Coining machine

C frame type Press machine

Solid and Heavy Duty body and compact C type frame and straight side frame type Press machines.
High productivity through High speed cylinder.
Two Hand control devices provide safe and easy operation.
Good for Multi-purpose and Multi-needs.
Quiet and smooth operation.

In order to understand customers demand we will start individual consulting first. We are continuing our philosophy not only develop, manufacture and supply but also contribute to customers request.

HYDRAULIC PRESS MACHINE**Standard C frame type Hydraulic Press machine**

Our best selling products which corroborates many actual experiences
Rigid frames guarantee high class accuracy and durability.

Standard Straight side frame type Hydraulic Press machines

Four column standard press machine layouts compact hydraulic devices.

Special designed C type frame Hydraulic Press machine

This standard based machine designed for customers special request.

Special designed Column type Hydraulic Press machine

This standard based machine designed for customers special request.

Side frame type Hydraulic Press machine

Sankei designs high accurate side frame press machine.

HOT PRESS MACHINE

We will supply various kinds of Hot Press machines design and development.

Hot Hydraulic forming machines

Electric heater type

Heating conduction type

Powder compaction Press machine

Various kinds of Sheet manufacturing

20 tons (200 Kilo Newton)
Electrical Screw press machine

2 tons (20 Kilo Newton)
Electrical Screw press machine

■ Machine Tool Sales

We are selling many machine tools through our original sales network.

- Horizontal , Vertical, Machining Center
- Horizontal, Vertical NC Multi-use lathe
- Drilling Center, Milling machine
- Geared machinery, Drilling machine, Sawing machine

■ Press machine Sales

We are selling not only Hydraulic press machines but also various kinds of press machines.

- All kinds of Hydraulic press machines
- Seaming machines, Coining machine, Automatic feeding devices

■ REPAIRMENT /MAINTENANCE of MACHINE TOOLS

Sankei response immediate answer for any trouble in spite of any maker or any type of machineries. Sankei' s well-experienced special engineers will give you the best proposal to you.

- Healthcare check for each production machineries
- Shearing machine, Coining machine, Automatic feeding devices etc.
- Each Slide mechanism
- Inspection for Main shaft
- Oil leakage repair
- Accuracy adjustment

■ REBUILT of VARIOUS KINDS of MACHINE TOOLS

Change to New production line, Modification to other type of production, Sankei assist fully support for best application.

- Design for new mechanism and electrical arrangement including tooling
- Manufacturing for production parts including assisting tools
- Installation, debugging, accuracy adjustment, final inspection.

■ Overhaul of VARIOUS KINDS of MACHINE TOOLS

Sankei will arrange best convenient schedule and budget otherwise in spite of dead machineries or replacement machineries.

Sankei apply both on site installation or bringing into our factory.

- Detail decision at final disassemble observation
- Arrange for replacement parts, purchasing parts and design new parts
- Fully supports to Disassemble, installation, adjustment, accuracy adjustment and final observation.

■ Removal

Sankei provides many tracking records for Disassemble, Transportation, Installation, Reconstruction.

- Investigation
- Dismantlement, Loading, Transportation and Installation for existing facilities
- Manufacturing Inspection , Accuracy adjustment and Final observation

■ REPLACEMENT of NC DEVICES

Sankei provides many modification and replacement from old NC to Latest NC devices Sankei' s well educated engineers assist you from Debugging to final observation.
